Purposeful Aging Los Angeles Launches Landmark Age-Friendly Survey

Purposeful Aging Los Angeles (PALA) - an Age-Friendly Initiative - launched a landmark survey today to gather feedback from County and City of Los Angeles residents that will guide the development of an Age-Friendly Action Plan for 2018-2021 for the Los Angeles region.

PALA seeks to prepare the Los Angeles region for a rapidly aging population through an innovative, sustained initiative that unites public and private leadership, resources and strategies. The older adult population (65 years and above) in the Los Angeles region will double between 2010 and 2030, from approximately 1.1 million to more than 2.2 million people.

"This is an opportunity for County and City of Los Angeles residents to speak out and help us make the Los Angeles region more age-friendly, allowing people to age in place and in community," said Cynthia Banks, Director of Los Angeles County Workforce Development, Aging and Community Services.
